two months. My foot and ankle were almost beyond recognition. Dark blood flowed out of wounds in many places, and I was so disheartened that I thought surely my last chance was slowly leaving me. As the foot did not improve, you can readily imagine how I felt. I was simply disgusted and tired of life. I stood this pain, which was dreadful, for six months, and during this time I was not able to wear a shoe and not able to work.

"Some one spoke to me about Cuticura. The consequences were I bought a set of the Cuticura Hemedies of one of my friends who was a druggist, and the praise that I gave after the second application is beyond description; it seemed a miracle, for the Cuticura Remedies took effect immediately. I washed the foot with the Cuticura Soap before applying the Ointment and I took the Resolvent at the same time. After two weeks treatment my foot was healed completely. People who had seen my foot during my lineau and who have seen it since the cure, can hardly believe their own eyes."

COUNTY RETURNS DEFECTIVE

Authorities in These Countie Have Been Notified to Make Correction.

[Special to The Times-Dispatch.]

RALEHGH, N. C., November 25.—The State Board of Canvassers has just gorten under way the work of canvassing the vote for State officers and Congressimen in the recent election, and a rough coast of the figures indicates that the Democratic vote in the State was 12,000 and the Republican vote 7,000. The canvass cannot be completed and the exact figures given out before Monday, or possibly Tuesday, owing to the defective returns from several counties, notably Nash. Canawha and Union. An especially remarkshile defect is in the returns from Surry county, When this package was opened to-day it was found that the election blanks were duly signed and certified, but that every space for figures was blank. There is also a discrepancy in the congressional returns from Ashe county, the Jefferson township returns being short one hundred Hackett votes. The authorities of these counties have been notified to forward corrected returns with all possible dispatch. Waiting for these is what will delay the completion of the canvass into next week.
